Hiyaa!
Shurikan star metor attack!
You.. you're ...
I just thought that you might want to be released from that chain
Thank you...
Um... Tsumuri Denjirou?
ahahha you sure do have a sense of humor
.... wait did you really not remember my name?
Nene!
Sparr-owmon!
OTZ

That power... how is it possible... I should be stronger
い…今のパワーはなんだ…!?
You need to rest Nene
I... I'm ...
I'm sorry I didn't notice your pain until now
I promise I will get Katone back!
so wait for me!
I'll deffinitly not fail you Nene
ah
Ack
guh...

カチャカチャ
?
I didn't like you at first but after hearing the truth
my opinion of you has changed Nene
コホン
……
Ehem
So on another note
So you can rely on me as well!
ドン
No matter what we won't let you be alone anymore! we'll fight with you Nene!

Kotone!

no! She is needed most!
for this to be a sucess !!

Don't interfer! Dark-Knightmon!

E-eh? Eer...
I-isn't this a bit extreame to cry right now Nene...
we'll have time.. to cry later when we're not in danger

キュゴォォ
COSMIC COLORED RAY !!
Kuh?! That power
It seems Cyberdramon is best against it
He uses basic attacks to ware out Ornismon
He hasn't had to use full power yet
h-how did you gain a ally like him?!
True he does have more power than your average Digimon
We found him while wandering around. It's natural he joined my army

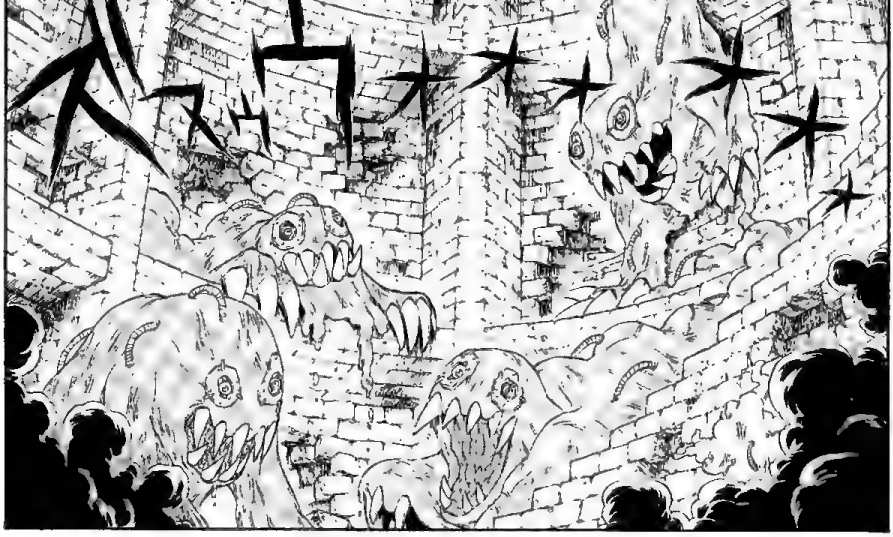
this is too stange for me though i think i get it
Most of our allies were goined becouse of Greymon's lust for battle
after the fight with him they wanted to join us to become stronger
all enemies here have been defeated !!
We even had rematches for days and nights on end
Those battles we're the best training play time
I see...
so the difference between an idiot and a smart person isn't that different

I see... useless people causing me more trouble than their worth... I guess using myself as bait will have to do
We'll just have to break into their without thinking of the outcome
Are you sure about this? Kiriho
The others their not out yet either
do you think they ran into trouble getting to Taiki and Nene?
What now Kiriho. We will loose a lot once we get inside
Any information on the team who went inside?

GIGA

Tempest!!
ズゴゴゴ

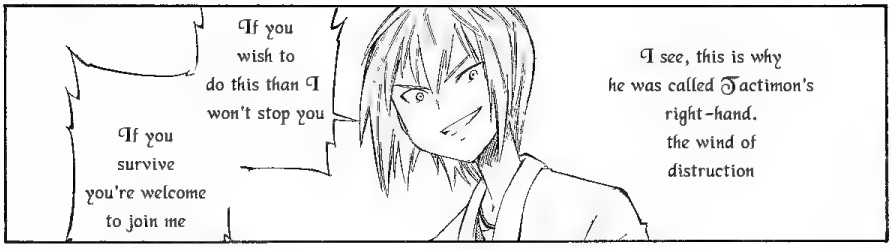
ズゴゴゴ
See? We got inside didn't we?
yes yes we did...



how intesting indeed this disgusting creatures
those.. things.. they keep multiplying...
What how

Dorulumon! Cutemon! Ballistamon!
You go on ahead blue flare ..
We will handle these Digimon so go!
!?

this digimon .....
when he'd be of more use further ahead
so it'd be a foolish idea to have Kiriha stay here and fight
We can't depend on Taiki's Xros Loader right now
instead of focusing on the enemy
with this many enemies we'd get to distracted seeing where our allies are
W-why? won't it be better if we fight all together?



If you wish to do this than I won't stop you
If you survive you're welcome to join me
I see, this is why he was called Tactimon's right-hand. the wind of distruction

Time to finish this!
which means Taiki is the light inside it!
Tactimon is the darkness in my heart
Heh. thanks but no thanks
Taking orders isn't really my style anymore

there is no way I will allow myself to lose here
RANDOM LASER !!!
you annoying bird
How dare you try to attack me
!!?
ROWDY

how... how is it possible to be hurt by THAT
He wasn't even able to hurt the borgo comander
how can he overpower Me?!
ROCKER!!!!!

Is he really just a rookie digimon named Shoutmon?
he seems to have something shining around him like star dust
I will stop this unreasonable nonsense!
!!
Digimon have set power levels a rookie can not be more powerful than him!
Only champions and megas may gain further power!
to be defeated by rookies is nonsense!
Sh-shoutmon.. he's...
I get it now
his will, and determination...
it's allowing him to change... evolve...
Do not say nonsense!

Zen-jirou !!
You don't have to charge ahead
No matter what! I never ever back down from a challenge!

Katone !!

eh?
Come on, take my hand we'll go back to the others
I'm here Katone! everything will be fine now!

gyaa
!!!
that digimon... i've never seen him before
What's that?!
!
Tsuwa-mon?
that's right
I almost thought you left
though i see you were lurking in the shadows
I have not needed to reveal my self to you human
I have to attack them and not think about it

TREASON VORTEX!!!
woah !!
geh!!
Gwah!
Sparrow-mon !!
iyaaaa !!!!

Shademon! Consume Kotone!
you can consume their Xros Code another time!
The attack is more than i thought it would prove
!!
no!! don't go near her!
KOTONE EEEE !!!

THAT'S THE TARGET

Kiriha
?!
CRUSH IT
AND RIP
IT
APART
!!

Kiriha !!
gweh !!
Too slow
I won't lose to you
I am Supiror to you humans
Go! Shade-mon Now!!
dammit !!
maybe... if I....
Sh...
Shademon !!
!

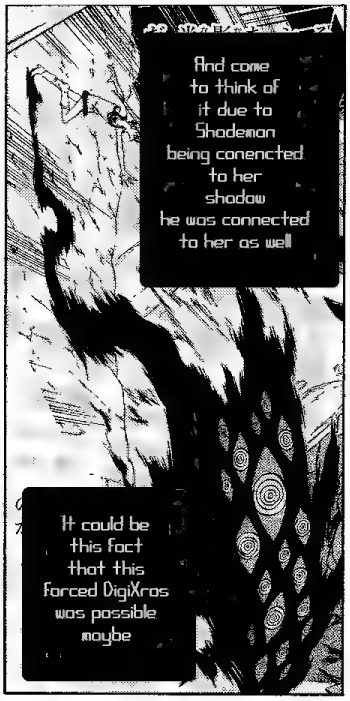
eh... WHAT ?!
Nene ?!
Amano Nene!!
What ?!
this can't be possible
!!!
Forced DigiXros !!!!

you
you really are...
パキ
パキパキ
Ki.. riha...
don't.. come closer...
S-soon I... i'll be...
A.. true..
witch... so...
YOU'RE NOT A WITCH OR ANY BULLSHIT LIKE THAT !!

I won't let you become a witch!
I will save you Nene!
I will bet all of my pride as a knight on it!
these tears you're crying!
their not the tears of a witch but those of a noble!
Their worth a knight to save you from what you are doing!
はっ……
はっ
you... you're so different... from before..
though.. i can't be saved
tch
かくん…

Guah!
Don't touch me human!
Forgive my form my lord.
how... a human and a digimon... together as one?
!?
shademon?
!
correct
being able to merge together... to become one of the royal knights
It reminds me of a story I once heard of the past... about a human and a digimon

!
where is the Xros Loader?



And come to think of it due to Shademon being conencted to her shadow he was connected to her as well
It could be this fact that this forced DigiXros was possible maybe

it is here my lord

Thought it seems that the one in control is Shademon. I'm not sure if that's due to him being stronger than the human though it seems that Nene was prepared for this

Shademon are you able to unXros from Nene?
The apperance of it has changed. it now is the darkness Loader after all

No. I can not
I see
It is mostlikely due to it being a forced DigiXros

Shademon
Will you test out the Darkness Loader?
I can't say it's complete but it should still prove usefull to us
this wasn't in my plans at all!... this complication... it's too fragile to figure out here
as you wish my lord
!?
y-yes ?
Duskmon!
Now... on whom to test on..

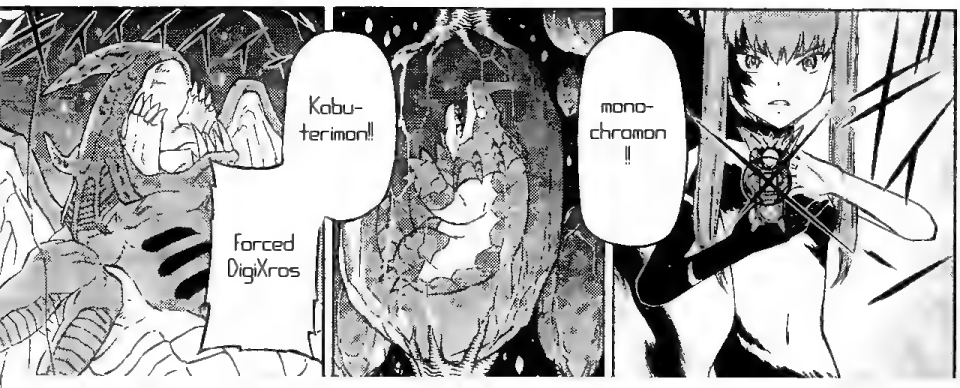
w-
wait
!!
I didn't
agree
to this
!!
gyaaa
!!!
Forced
Digi
Xros
with
DarKnightmon
!!
hm

So it seems you were able to stop me at something
Nene Amano
though it's still dangerous to consume
one of the 3 borgo commanders
が
It seems im able to control 90% of his power
no.... not just you
.....
All of these humans have interfered in this
は

you all are useless trash!
vanish already !!
destroy the castle as well
From here on our power will grow
though at this moment we need to conserve it
so we can defeat my brother's army!
it's the fastest way to get rid of them
Yea Yea
keep talkin. we'll still stop you!
Do you really think you can beat all of us!?
Tsuwamon!!
Shademon!!

Geh!!

Cyber-dramon!!



Kabu-terimon!!
Forced DigiXros
mono-chromon!!

MetalTyrannomon
Megidramon
Forced DigiXros
Kuwagamon
AirDramon
Forced DigiXros
Gorurumon
Skullgreymon
Forced DigiXros
!?
Andromon
Metal-mamemon
Forced DigiXros!
Forced DigiXros!
What are they doing...
Mugendra-mon
Chimera-mon

FORCED DIGIXROS!!!!
ドドド

Fufuufuha take a good look at this digimon children
who took control of this digital world many many years ago
the birth of the reincar-nation of Milleniumon

though it isn't the same as the old original milleniumon with so many souls inside it
It's obvious whom has won here
with this digimon you all stand no chance
Kiriha
are you able to stand?
Taiki?
He's making innocent digimon soil their hands all for his own selfish wish
now watch as your dreams ideals hopes wishes and desires all meet their end and vanish
So you still wont to fight?
You can't win as you are now
And besides true to the legend this digimon isn't able to be defeated!
Let everything meet it's end today!

you're wrong! We can create a miracle and stop your plans!
Just behave and vanish
your lives will all end here today
we can't let that go to waste and die here!
she didn't give up!
she sacrificed herself to save her sister and us!
Nene herself proved that! even if her heart is torn
brother ?

He's right
if we die here then I'll never be able to see her smile again!
we can't afford to loose after everything that lead up to this
we will get Nene back and stop this Digimon
SHOUTMON!!
METALGREYMON!!

EVOLVEEEEE!!!
!!!!!

OMEGASHOUTMON
That light... new digimon have appeared through evolution
ZEEKGREYMON

Hardcore Rock Damashii!!
TRIDENTFANG!!
this can't be happening
How.. but they didn't Xros ?!

Tch
did they manage to knock it off course?
what!? why?!
if we continue to fight it'll never end we'll tire out faster than they will
listen for a sec
we should focus on escaping right now
It's allowing him to regenerate further
other digimon are still being consumed by him
shit

Intersting I can't help but agree with this idea
So shall we Kudou Taiki?
.....
if he's in the digital space he can't harm other zones
he also can't escape it
We should us both our XrosLoaders to open a zone-transfer
we can then push him into it!
show me what your plan and ability can do!
!.....
don't underestimate me Taiki!
no duh
We have to use full power to get this to work
Digital Gate Open !!

knock him out of this zone!
FINAL STRIKES
OMEGA THE FUSION
now!
Omegashout-mon!

Before he can regenerate again!
